Objective

To contribute to innovative projects and solutions, driving efficiency and growth for the organization. I aim to collaborate with a dynamic team, continuously learn, and apply cutting-edge technologies to help the company achieve its strategic goals. Additionally, I seek opportunities to enhance my technical expertise and problem-solving skills while making a meaningful impact.

Education

Keshav Memorial Institute of Science and Technology
BE in Computer Science Engineering
Honors in Machine Learning and Data Analytics

Nov 2022 – Present
CGPA: 8.32/10

Experience

Teaching Assistant, IFS - KMIT

April 2024 – May 2024

- Assisted in teaching DSA using JavaScript, guiding students on core concepts, algorithm optimization, and coding assessments.

Projects

Flipkart Chatbot using Flask, LLM, and RAG

- Developed a chatbot for Flipkart to enhance customer support using LLM and Retrieval-Augmented Generation (RAG).
- Tools Used:** Python, Flask, Hugging Face Transformers, Elasticsearch

Data Science Job Analysis (UK)

- Analyzed job trends, salaries, and skill demand in the UK data science market.
- Tools Used:** Python, Pandas, Matplotlib, Seaborn

Twitter Sentiment Analysis

- Developed a Twitter Sentiment Analysis tool using Tweepy, TextBlob, and Matplotlib.
- Collected real-time tweets, performed sentiment classification, and visualized results using pie charts.
- Tools Used:** Python, Tweepy, TextBlob, Matplotlib, Jupyter Notebook

GitHub Profile

github.com/nagadhanush23

Technologies

Programming languages: Python, C, Javascript and Java

Web Technologies and Databases: Node.js, HTML, CSS, MySQL, MongoDB

Machine Learning and AI: ML and DL algorithms

Cloud Computing : AWS, Software Engineering

Achievements and Certifications

Data Analytics and Visualization Job Simulation

- Completed a job simulation by Forage and Accenture.

60-Day Virtual Internship in Data Analytics

- Successfully completed an internship offered by KultureHire.
